

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of claims:

Claim 1 (currently amended). A climate-controlled ~~chamber~~
~~assembly~~ wellness apparatus, comprising:

a ~~device forming a chamber~~ living unit for receiving a person;

a control device for controlling climatic and ambient
conditions in said ~~chamber~~ living unit;

biosensors disposed to detect body parameters of a body of the
person located in said ~~chamber~~ living unit and connected to
said control device;

~~wherein~~ the climatic and ambient conditions in said ~~chamber~~
~~are~~ living unit being regulated by said control device
directly based on the body parameters detected by said
biosensors.

Claim 2 (currently amended). The ~~chamber assembly~~ wellness
apparatus according to claim 1, wherein said biosensors are
configured to detect parameters selected from the group
consisting of a temperature, a pulse, a skin resistance, and a
blood pressure of the person in said ~~chamber~~ living unit.

Claim 3 (currently amended). The ~~chamber assembly~~ wellness apparatus according to claim 1, wherein said control device includes a processor, and said processor and said biosensors are connected in a closed-loop control system for regulating the climatic and ambient conditions in said ~~chamber~~ living unit.

Claim 4 (currently amended). The ~~chamber assembly~~ wellness apparatus according to claim 3, wherein said biosensors are connected to said processor via a radio link.

Claim 5 (currently amended). The ~~chamber assembly~~ wellness apparatus according to claim 1, wherein said biosensors are connected to said control device via a radio link.

Claim 6 (currently amended). The ~~chamber assembly~~ wellness apparatus according to claim 1, wherein said control device is configured to control a composition of fluidic media supplied to said ~~chamber~~ living unit.

Claim 7 (currently amended). The ~~chamber assembly~~ wellness apparatus according to claim 6, wherein said control device is configured to control a pressure or a flow volume of the fluidic media.

Claim 8 (currently amended). The ~~chamber assembly~~ wellness apparatus according to claim 1, wherein said control device is configured to control at least one of an illumination and an acoustic irradiation in the ~~chamber~~ living unit.
